

Lonely Man

Who's gonna love me when I'm older
When my attitudes grown colder, bitter
Who's gonna love me in my hospital bed
When my family is dead
Stranger from my blood donations blessings then

Who's gonna sneak me out to a drinking hole
When every gulp could be my last
Demon inside a saint's body, could be anybody
Cause they know I've had enough of laying around

Who's gonna take me to my grave
When I can't afford a piece of land
Who's gonna find my body in a foreign country
And care who I was
Before I ran away without an Instagram post

Who's going to take care of my ponies
And other characters like Groggu
Who's going to find my acoustic
And unreleased recordings
And promote them like I was a living legend

Who's gonna tell my estranged friends
That I past away on some island
And that they repatriated my body
Against these songs' wishes and put me down somewhere in Ohio

My spirit will probably find a soulless guy
May be that man who has a coconut farm outside of Bangkok
Who lives to break the rules from time to time
And then I'll live my days out as a lonely man

Crystal Castle

Thumbing through the pages of a new book I won't read
Shifting the blame away from a spiritual cloud I believe
A wave away from a trend, accidentally
And then they find me like a virgin oasis
Ice in space in my ribcage
It ain't cool to be cool

If it isn't good for me
Why do I miss it
If it isn't possible
Why do I risk it
Of all of the people here
What are the chances
It isn't hot to be hot
Girl is burning me up
Think I'd rather be shot
Giving it all that I got

Freezing the dream in a cage
Letting it scream through the ages
Tearing myself from her pages

She is a crystal castle
Ideal feelings
Can't get in the way of what I'm thinking
She is pretty pictures
Fog on the mountains
Nothing breaks as long as nothing happens

Changing the story now
'Cause I lost that one in covid
Things to do 'fore I die
Cause I lost that one emotion
Ice in space in your ribcage
Crystal castle will stay

She is a crystal castle
Ideal feelings
Can't get in the way of what I'm thinking
She is pretty pictures
Fog on the mountains
Nothing breaks as long as nothing happens
She is a crystal castle
Ideal feelings
Can't get in the way of what I'm thinking
She is pretty pictures
Fog on the mountains
Nothing breaks as long as nothing happens

Tonight

Baby Tonight

All the love we have almost paradise

All the times we share just you and I

Change the paradigm for another life

Baby you're right

All the love we share almost paradise

All the places we could go tonight

With your hand in mine

How do I live without your touch

How am I here if you don't hear me say anything

Anyways how are you today

Baby go right

To the place we'll spend almost every night

Cause the love we have lasts the rest of our life

With Christ as our guide

How do I forgive without your touch

How do I live without your love

How do I make another day

How do I afford to miss your smile

Turning from the page it's upside down

How do I know someone won't burn it all to the ground

Baby Tonight

All the love we have almost paradise

All the times we share just you and I

Change the paradigm for another life

How do I live without your touch

How am I here if you don't hear me say anything

Anyways how are you today

Angry Man

Angry man

You try to put yourself in that position

And the angry man

You find out that it's not coming from you
You talk behind their backs
I know your type and your words sound cowardly
The angry man
I am the angry man

Angry man
Never became a thing you wanted to be
Angry man
Wandering around for an eternity
You never got my back
But you said you had it every single time
The angry man
I am the angry man

One gig, two gig, five hundred gigabytes
Now I'm mad without all this space around

Angry man
Definitely need a break from all of this
A trip around the world
Can't believe you haven't even left your state

You took the love of my job
Sucking out the soul of everything I did
Now you want it back for free
The memories I have left without your dream
Of saving everyday
Now I'm trying to save you from the company
Angry man
I am the angry man

One gig, two gig, five hundred gigabytes
Now I'm mad without all this space around

One gig, two gig, five hundred gigabytes
Now I'm sad with all this space around

One gig, two gig, five hundred gigabytes
Now I'm mad without all this space around

Days Gone By (Love Bird)

Days gone by
Check your calendar
How many days since the last time
You said goodbye
When's the last time that you had a fantasy
Then saw how many
Days had gone by
World conspired, set it up to happen then you let
Those days go by
Wore your ol' blue jeans to work even though it kind of hurt
Days gone by
Told the girl at the grocery store that you liked her skirt
Days gone by

Going on a trip
Out of the country; one thing you wouldn't bring
Tell me what it is
About some girls that make you want to sing
Like some birds sing
Over and over again, the same thing then
Tell me what it is
About those other girls that make you want to scream

Days gone by
How many days since you saw a movie's premiere, when it first came out
Took a day off, drove downtown and stayed in the inn
Days gone by
Check your calendar
When's the last time you saw your Grandma

Going on a trip
Amsterdam to Paris; one thing you wouldn't bring
Tell me what it is
About some cities that make you want to sing
Like some birds sing
Over and over again even if you haven't been
The same thing we all sing
Didn't do that, regret it
Let me think

Days go by, tell me why do I miss
Days gone by, tell me why do I miss
Days gone by, tell me why did I miss
Those days gone by

Tell me why do I miss days gone by
Tell me why do I miss
Those days gone by

One thing you wouldn't bring
Tell me what it is
About some girls that make you want to sing
Like some birds sing
Over and over again
The same dang thing
Then tell me what it is
About those other girls that make you just want to scream

Days go by
Tell me why do I miss days gone by
Tell me why do I miss those days gone by
Days gone by
Tell me why do I miss days gone by
Days gone by
Tell me why do I miss days gone by

Bonus Track

6.25.26 (Today)

How can I live
How can I live without you
What I wouldn't give
To spend a night on the town with you
Would a riddle lift
To put the meaning of life back into
Every little kiss
I think I missed the point of all of it

How can I give
Give another day of myself
With the way it is
Wish I could just make it go away
To the way it was
Or am I glorifying days gone by
Is the way I am

Really that hard to understand

In the present tense
Got the words all wrong for you again
In my innocence
You prefer the guilt I had been in
For the thrill of it
Glorify you glorify yourself
And in my sin
You keep trying to wash it all away

So I cannot win
I said before
I'll say it again
What is it in that makes you turn against me still today
That makes you turn against me still today
That makes you turn against me still today
How can I live, how can I live without you
How can I live, how can I live without you
How can I give...
That makes you turn against me still today
That makes you (still) feel this way for me today
